Cheer Hon. Roger Q. Mills Until They are Hoarse.

Greener, I.L., Aug. 20.—Fifteen thousand people, of whom a large majority were farmers, gathered here to-day to hear an address by Congressman Mills, of Texas, on the tariff question. Previous to the address the congressman held a reception of an hour's duration in the hotel parlors. In his speech Mr. Mills did not comine his remarks to the tariff alone, but found time to express his opinion on the Lodge Force bill, which he characterized as one of the most atrocious and malignant pieces of sectional legislation that had been attempted since the war, and clearly showed that it is a measure devised by a decaying political party to assure them of continued control by suppressing a free ballot in the Southern States. The farmers cheered until they were hoarse when Mr. Mills concluded.

Eliphalet became more affectionate than ever, and succeeded after much persuasion and promises of an early marriage, in inducing the infatuated maid to transfer two farms to him. In consideration of the transfer Eliphalet paid his fiancee a month's wages, (20) gave her a personal note for \$1,000 and for the balanced promised to marry her speedily. Mary's brother lived in a small house on one of the farms, and, as he paid no rent, Pace invited him to move. Howelf declined to do so and questioned Pace's authority to order him out of the house. Pace then secured a writ of ejectment, and in this way it became known that the young man had prevailed on Miss Howell to deed her property over to him. The woman's relatives took the matter in hand and at once began measures to get the property from Pace. They will endeavor to show that Miss Howell is insane, and could not legally transfer her property.

None of the passengers were hurt. The blame for the accident rests with the freight conductor, who failed to have the switch closed. The rear brakeman of the freight-train was taken sick at Harper's Ferry, and the conductor forgot to send back another man to close the switch.

CHICAGO, Aug. 25.—About eighty switchmen, in the employ of the Chicago and Alton ratiroad, in this city, went out on strike this morning. At present the passenger traffic is not being interfered with, but freight traffic in the yards has been entirely suspended. The company has called upon Superintendent Marshall for police protection for its property. Some months ago a foreman in the employ in the Chicago and Alton's yards left the company's employ and went to work for another road. To-day the company re-employed him, and attempted to instal him in his old position. The men in the mean time had become attached to the new foreman who succeeded him, and struck this morning against any change.

EVIDENTLY BEATEN,

SO THE STRIKE ON THE NEW YORK CENTRAL IS REGARDED.

Receives Its Death-Blow when the Supreme Council of Federated Railroad Employes Refused to Join It—Latest Reports of the Situation.

New York Aug. 26.—[Special]—The strike on the New York Central is evidently beaten. Its death blow was the merely

square to-night in response to the call for a meeting of sympathizers with the New York Central strikers. Speeches protesting against the action of the Pinkerton men at Albany and elsewhere, the action of the Brotherhood of Locomotive Engineers, and of the officers of the New York Central in particular, were made by Mr. T. V. Powderly, Robert Blissert, Mr. Margant Moore, and others, and resolutions of like purport were adopted.

Ar. Blissert and Mr. Moore recited the wrongs inflicted upon the workers by capitalists, and urged working men not to vote for the party that supported capitalists. It was Chauncey M. Depew's highest ambition, Mr. Rlissert said, to be at table with the Prince of Wales at his castle. The country did not want that man for President.

Mr. Powderly said it was announced from Terre Haute, last night, that the Supreme Council of Federation of Rail way Employes had endorsed the action of the Knights of Labor in the present strike. There were men in other organizations who were waiting for a popular movement. He did not care. He would go on and fight until the capitalists of the country were overthrown.

## MAKES A NEW RECORD.

THE CITY OF NEW YORK WINS

THE LAST OCEAN RACE. She Makes the Trip in Five Days, Twenty-One Hours, and Thirty-Nine Minutes-

### Inman People Jubilant Over Her Suc cess-Miscellaneous Mention.

NEW YORK BUREAU RICHMOND DAILY TIMES, August 26, 1890. The City of New York won the ocean race this time and seems to have made a new eastern record. She was sighted at Browof New York, passed the Sandy Hook light at 9:46 A. M., August 20th, according to Captain Watkins. With the five-hour allow ance this would make her time 5 days 21 hours and 39 minutes. If that calculation s correct the City of New York has beaten er own record, even going west in 5 days 22 hours and 7 minutes, and has established

new record for the eastern passage. The Inman agents here figure the time of the City of New York at 5 days 21 hours and 43 minutes. The best previous record at the steamer was made August 21, 1889, of the steamer was made August 21, 1889, when the distance was completed in 6 days 2 hours and 18 minutes. She has, therefore, beaten her own record by about three hours, but the record of 5 days 12 hours and 50 minutes made by the City of Paris December 25, 1889, remains unbroken. The aman line officials are much claud over the record made by their steamships. The Teutonic was beaten by two hours.
